The Fresco Kitano Tenmangu Store is smaller in size than Fresco, which is operated by our company, and aims to optimize store operations. The product lineup includes drinks, alcohol, daily delivery items, and daily necessities that can be purchased at supermarkets, as well as our company's signature in-house prepared delicacies, seasonal vegetables and fruits, and carefully selected our company's private label products F Green and F Price.

Kitano Tenmangu Shrine is one of Japan's three largest Tenjin shrines and is dedicated to Sugawara no Michizane. It is widely worshipped as a shrine to pray for passing entrance exams, academic achievement, cultural entertainment, and the removal of calamities and misfortune. Visitors come from all over Japan as the "god of learning " and" god of entertainment ". On the 25th of each month, the Tenjin Market, a festival known as Tenjin-san Day, is held inside the shrine and attracts many visitors.

The Fresco Kitano Tenmangu Store will contribute to the development of the local community with the aim of becoming a "city refrigerator " that provides convenience and peace of mind to visitors.
